

I want to thank you for voting against the Abortion Legislation Bill.

This is an inhumane, divisive and extreme abortion law which has no place in a compassionate and progressive New Zealand.

While I am very disappointed that the Bill passed, I am so thankful that we have MPs like you who were willing to stand up against this extreme abortion Bill.

This must not be the end, but the beginning of the end of this terrible legislation.

I urge you to now start taking action to lay the groundwork of the repeal of this horrific law. The groundwork to build the network of MPs in Parliament to achieve this needs to begin now. Please start with the group of MPs that opposed this Bill and turn them into a force that realises the repeal of this law and creates a country where both lives matter.

Please know that as a voter you will have my support every step of the way.

Many thanks again for your brave and courageous vote against this Bill.

Yours sincerely,
